Faucets

FAUCETS

Fontana carry faucets that are elegant rugged and durable designed to survive harsh conditions, including thousands off and on cycles year after year, after year they will survive hard water mineral build-up, and still will provide you flawless service for so many years to come. The state of the art finish applications will not flake or tarnish. The plating and coating processes, will keep that finish looking new for a long time. Our faucets have ceramic cartridge technologies that entirely banished the midnight drip. Fontana faucets are made of newer no-maintenance ceramic technology which is a better choice.
